

DEFUNCT PAPERBACKS

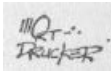

ARTIST CONCORDANCE

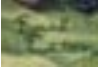

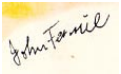

This list contains all the names that are credited with artwork in the individual indexes that make up the Defunct Paperbacks project. If an imprint is given in all capitals then the name is credited for a book cover; otherwise the name appears only on interior art for that imprint. Cartoonists are covered in a separate concordance, but may be listed here as well if their work appeared on a cover. Examples of signatures are provided when they were available. Most of the names without signatures were identified from printed credits or copyright registrations; many others were credited for photographic covers. Scans of un-interpreted signatures are posted in the individual indexes.
