

MEDICAL FICTION BOOKS

Compiled by Jerry Boyajian

Publisher: Neva Paperbacks, Inc., P.O. Box 2109, Las Vegas, Nevada
Distributor: none given
Format: tall pb
Price: 50¢

This is the only known mass-market imprint from Neva, who primarily published soft-core porn under the imprint **Playtime Books**. The Nevada address was a mail drop; the company was actually located in Florida. The owner appears to have been Stanley R. Schrag, presumed to be the same person who published short-lived paperback imprints in Canada in the late 1940s, including Newsstand Library.¹

These 4 books are all that are known for this series. No explanation is known for the issuance of this series; it was probably intended to cash in on the popularity of contemporary TV shows like Dr. Kildare and Ben Casey.

I was fortunate in being able to examine all 4 books. All were novels and all were original. There are no cover credits but all four have visible signatures. All four covers appear in the Bookscans database.

I would like to thank Ken Johnson for his help in preparing this checklist.
